

Still tracking compliance
through endless spreadsheets?

Centralise, Simplify and Stay Audit-Ready with Compliance Register

Streamline your compliance management

Instead of juggling multiple spreadsheets, gain real-time visibility into your regulatory requirements, tasks and risks – all from one secure dashboard.

Centralised Dashboard: Manage certifications, audits, and compliance tasks in one place.

Audit-Ready Documentation: Maintain a clear “paper trail” of actions, policies, and updates for hassle-free audit preparation.

Policy Mapping and Gap Analysis: Identify regulatory gaps and map Standards like ISO 45001 to internal policies.

Real-Time Regulatory Alerts: Stay informed with automated notifications on legislative and deadline changes.

Risk Management: Monitor business risks and define mitigation strategies with confidence.
